Welcome by the Patron of CEOI 2014

Dear participants of the 2014 Central European Olympiad in Informatics,
Jena, the city of sciences is looking forward to you. Friedrich-Schiller-University and Carl Zeiss-Gymnasium together have prepared this year's Central European Olympiad in Informatics. The challenging competition is not the only event that awaits you. The attractive supporting program offers many opportunities for professional exchange and experience.

I am glad to be the patron of this event. The competition is a great opportunity to support and promote young talents in computer sciences and to open perspectives.
I warmly welcome you: Take a good look around. Jena is a young vibrant city with excellent career prospects. The close networking with the industry has been tradition in Jena since Zeiss, Abbe, and Schott. Scientists from all around the world research in sectors of the future. Who knows – perhaps one of you will join us.

I wish you much success and lots of fun and hope that you will benefit from your participation in our competition in many ways.
Christoph Matschie
Thuringian Minister of Education, Science and Culture
